SYNOPSIS

India's capital gains tax landscape is undergoing a dramatic shift, with new provisions coming into force from 23rd July 2024. These amendments fundamentally alter the way capital gains are defined, computed, and taxed—impacting how taxpayers across the spectrum file their Income Tax Returns for FY 2024-25 (AY 2025-26).

Among the most notable changes are:

- A revised framework for holding period classification across asset classes
- Withdrawal or restriction of indexation benefits, with only a few exceptions
- Recalibrated tax rates across short- and long-term capital gain categories

This exclusive session brings together financial leaders, tax professionals, and compliance experts for a clear and practical walkthrough of these complex regulatory changes. With SAB Proserve as the Knowledge Partner, the event promises rich insights, expert interpretation, and real-world scenarios to help demystify the implications.

Whether you're a CFO shaping tax strategy, a finance manager ensuring compliance, or a CA-in-training assisting in return filings, this session offers critical takeaways on how to:

- Align your capital gains reporting under the new rules
- Avoid costly missteps and tax exposure
- Plan transactions with better clarity and confidence

Join us on 8th July 2025 to stay ahead of the curve and ensure a seamless and compliant ITR filing experience under the redefined capital gains regime.
